PROFESSIONAL SUMMARY

Motivated Software Development student with a Bachelor of Engineering in Electrical Engineering and practical experience building responsive web applications using HTML, CSS, JavaScript (ES6), Git, GitHub and modern development tools. Currently pursuing a Bachelor of Science in Software Development at BYU–Pathway Worldwide, where I have completed multiple hands on software development projects. Passionate about developing clean, user friendly and responsive web applications while continuously improving my technical skills. Strong problem solving, analytical and communication abilities gained through engineering, education and collaborative software development projects. Seeking an entry level Software Developer or Frontend Developer role where I can contribute, learn and grow within a professional development team.

TECHNICAL SKILLS

Programming Languages

HTML5, CSS3 and JavaScript (ES6)

Web Development

Responsive Web Design, DOM Manipulation, Event Handling, Form Validation, ES6 Array Methods, Recursion and API Integration (Course Projects)

Development Tools

Git, GitHub, Visual Studio Code and Docker

Database

MySQL (Learning)

Libraries

SweetAlert2

Productivity Tools

Microsoft Word, Microsoft Excel, Microsoft PowerPoint and Google Workspace

SOFTWARE DEVELOPMENT PROJECTS

a. Nsikak Quiz App

Description

Developed an interactive quiz application using JavaScript as part of the CSE 310 Module #3 project. The application demonstrates modern JavaScript concepts, including DOM manipulation, recursion, ES6 array methods and integration of external libraries.

Key Features

Interactive quiz interface, Multiple-choice questions, Score tracking, Final score display, Restart quiz functionality, SweetAlert2 notifications, Recursive function implementation and ES6 array methods.

Technologies

HTML5, CSS3, JavaScript (ES6) and SweetAlert2

b. JavaScript Task Manager

Description

Built a task management application that enables users to create, edit, organize and manage daily tasks using JavaScript.

Technologies

HTML5, CSS3 and JavaScript

c. Chamber of Commerce Website

Description

Designed and developed a responsive business directory website featuring dynamic content, modern layouts and user friendly navigation.

Technologies

HTML5, CSS3 and JavaScript

d. Creative Hustle Hub

Description

Developed a responsive website that promotes entrepreneurship, collaboration and business networking.

Technologies

HTML5, CSS3 and JavaScript

e. Sleep Outside Project

Description

Collaborated with a development team to build an e-commerce web application, applying GitHub version control, teamwork and JavaScript programming.

Technologies

HTML5, CSS3 and JavaScript, Git and GitHub

PROFESSIONAL EXPERIENCE

LECTURER

Secondary Schools, Technical Colleges & Polytechnics
Uyo & Ikot Ekpene, Akwa Ibom State
2019 – 2024

Responsibilities

- a) Taught Mathematics and Physics at secondary and tertiary levels.
- b) Prepared lesson plans, assessments, and instructional materials.
- c) Guided students through problem solving and analytical thinking.
- d) Maintained accurate academic records.
- e) Collaborated with colleagues to improve learning outcomes.

Transferable Skills

Communication, Problem Solving, Critical Thinking, Team Collaboration, Time Management and Presentation Skills

GENEALOGIST

LifeWood (BYU–Pathway Worldwide)
Lagos, Nigeria
2024 – 2025

Responsibilities

- a) Conducted historical and genealogical research.
- b) Verified and analyzed records.
- c) Managed digital documentation.
- d) Maintained data accuracy and confidentiality.

Transferable Skills

Research, Data Analysis, Documentation, Attention to Detail and Record Management

EDUCATION

Bachelor of Science (In Progress)

Software Development
BYU–Pathway Worldwide

Relevant Coursework

Software Development, JavaScript Programming, Database Design, Web Development, Software Engineering, Git & GitHub, Software Testing and Version Control

Bachelor of Engineering

Electrical Engineering
Akwa Ibom State University, Nigeria

Graduated: **2016**

CORE COMPETENCIES

Frontend Development, Responsive Web Design, Software Development, JavaScript Programming, Git Version Control, GitHub Collaboration, Problem Solving, Debugging, Teamwork, Technical Documentation, Analytical Thinking and Continuous Learning

CERTIFICATIONS

- a) Bachelor of Engineering (Electrical Engineering)
- b) Bachelor of Science in Software Development (In Progress)

PROFESSIONAL INTERESTS

Software Engineering, Frontend Development, Full-Stack Development, Web Technologies, Artificial Intelligence, Open Source and Continuous Learning

AVAILABILITY

- a) Available for Full-Time Employment
- b) Available for Remote Software Development Roles
- c) Available for Internship and Graduate Developer Opportunities
